

# Air

More advanced songs don't have a set hand position, like "C position," etc. In "real" music pieces like this, just try to follow the finger suggestions as you play along.

So this song doesn't have a "hand position." It has fingering suggestions as you play, so you'll have to move your hand around more than previous songs.

Mozart

Piano

5

Red circled numbers mean you'll have to move your hand a bit more than just a little stretch.
